Subject: Florida Region Discontinued SKUs

Dear Valued Customer,

Westlake Royal Roofing Solutions™ is continuously evaluating our product offering to meet customer needs. After considering the impact of Hurricane Ian, we have made the decision to reduce our SKU offering of Lake Wales and Okeechobee products to provide more consistent availability. We are also actively working to increase capacity in the network to provide additional availability in the market.

Please refer to the following attached list for specifics regarding SKUs that are being discontinued. This discontinuation will go into effect on November 14, 2022. All orders placed prior to November 14th will be honored and we will work closely with you to ensure product is made to complete current projects. An updated price list with our revised offering will be sent in early December.

We remain committed to manufacturing the highest quality products in the industry and value your support in the market and thank you for your business and continued partnership. Please do not hesitate to contact your Territory Manager or Customer Service at (863) 824-1289 to help with any questions.

Sincerely,

Westlake Royal Roofing Solutions™
Vice President, Sales and Marketing
